THE EMIGRATION COMMISSION.

Mr. Forrest Elected President for the Ensuing Year.

HEAD MONEY DEFENDED.

An Important Letter to the New York Produce Exchange.

The annual meeting of the Commissioners of Emigration was held yesterday afternoon at Castle Garden, the President, Mr. George J. Forrest, in the chair, and Commissioners Lynch, Starr, Kaufmann, Quintard and Maujer being present. Bishop Quintard, of Tennessee, was introduced by his brother, and after the meeting inspected the building.

Mr. deorge J. Forrest was re-elected President for

the ensuing year by a unanimous vote and the appointment of Mr. Henry Jackson as Superintendent and his staff confirmed. A number of minor appointments were made on the Ward's Island list of employés. The following important letter, answering the objections to the bill now pending in Congress for the regulation of immigration, was read and approved and copies ordered sent to the various commercial bodies throughout the State:-

CASTLE GARDEN,
New York, Feb. 15, 1877.

JAMEZ L. PLINT, Esq., Secretary Board of Managers of
New York Produce F. xchange:

BIM—The Commissioners of Emigration have the honor to
acknowledge the receipt of your letter of the 7th inst., inclosing a communication from the Beston Board of Trade to
the Board of Managers of the New York Produce Exchange
concerning a bill above panding in Congress, entitled, "An
Act to Regulate Immigration," and asking such information on the subject as this commission may be able to impart to you. In reply the Commissioners beg to inclose
torewish copy of a memorial presented to Congress with
the bill in question, and briefly to inform you of the reasons
May, 1841, for the enactment of this measure. From
May, 1841, for the enactment of this measure. From
May, 1841, for the enactment of the measure of the
State provided that the country of the State
State provided that the country,
having on board alien passengers, should give a
bond to the State in the sum of \$300
for each of such passengers conditioned to indemnify every
city, town and country of the State against any charge or
expense on account of the passenger named in the bond
within five years from arrival. The parties interested in
the vessel had, however, the right to commute for this bond
by paying a certain sum, which varied from \$2.50 to \$1.50
per capita, as changed at different periods by act of the
Legislature. This money was known as commutation or
head money. It was made the duty of these Commissioners
of Emigration to provide from this fund to the expense insurred by any city, town or country of this State for the
maintenance of sick or destitute aliens who might have arrived at this port within the previous five years. This systom was put in operation in fax, 1847, and continued until
the 20th of March, 1876, when the Supreme Court of the
State laws being regulations of commerce, were uncontitutional, and ought to be superscoled by national legislatitle of the supersconding the commerce of the commiss

stitutional, and ought to be superseded by national legislation.

"We are of opinion," said the Court, "that this whole
subject has been confided to Congress by the constitution;
that Congress can more appropriately and with more acceptance exercise it than any other body known to our law.
State or national; that by providing a system of laws in
these matters applicable to all ports and to all vessels a
serious quostion, which has long been matter of contest and
complaint, may be effectually and satisfactority settled,"

TO CONTINUE TICE PROTECTION.

The Commissioners of Emigration, convinced that the
susignant system which had so long prevailed at this port
with advantage to New York and benefit to the immigrant
should not be permitted to pass away and be destroyed,
submitted the facts to the State Legislature and funds
were appropriated to carry on the work for the year ending
May I next, so that the system might not be interrupted
until Congress had an opportunity to legislate on the
sulveir.

Under date of April 29, 1876, the Legislature of this State

subject.

Under date of April 29, 1876, the Legislature of this State adopted the following resolution:—

"Resolved, That the Commissioners of Emigration are hereby instructed to call the attention of the Congress of the United States to the present condition of the Emigration to the Congress of the United States to the present condition of the Emigration of the Congress of the Congress the resulting from the decision of the Supreme Court of them resulting from the decision of the Supreme Court of the Congress the necessity for speedy astional legislature regard thereto; and that said Commissioners take such as the regard thereto; and that said Commissioners take such as the Congress the necessity for speedy astional legislation."

After much consultation and correspondence, in which the State Boards of Charities of Massachusetts, New York, Pennsylvania, Rhode Island, Michigan, Wisconsin and Illinois participated, and in which the Massachusetts biate Board of Charities has had an important part, a bill was agreed upon as satisfactory in substance, and in July last was presented to Congress.

The objections to the bill made by the Boston Board of Trade are in direct opposition to the views of the Massachusetts Board of State Charities, as expressed in the annual report of the Board presented in January of this year to the State Logislature, recommending the enactment of the Board of Frade. The latter deals with merchandise and goods, while the immigrants, human beings, are the subjects of commerce only in the broad sense of that term, signifying intercourse between the people of various nations. They would therefore seem to be without the sphere of organizations of trade and provide low affecting humanity.

The distribution to book after and provide low affecting humanity.

stronger case, the State laws, by the United States Supreme Court.

The legislation to which the second objection is made provides for the return to the port whence they came of persons who on inspection before landing might be found unable to support themselves. Innatics, criminals, &c.; and is considered an absolute necessity as this commission has about a considered an absolute necessity as this commission has about a transfer of this class are frequently shipped to this port by toreign authorities and persons abroad interested of relieving themselves of the burson of their care a.d. support. These should be compelled to return, and not become an immediate and permanent charge on the public institutions of this country.

fund was established by the State laws, and these laws having been declared by the highest national tribunal to be unconstitutional and void, national legislation to continue these protective and beaneficant measures is acquist.

The great immigration to the port of New York during the past hirry years being, as before stated, 6,90,90, 90, or three-lourths of the entire immigrants to the United States, is greatly attributable to the provision made under the laws of this State for their protection, care and support by means of Castle Garden as a landing depot and place of rest and information for them, and the retage and hospitals on Ward's Island for the maintenance of the destricter and the dare of the sick. Information of these protective and the dare of the sick. Information of these protective and the dare of the sick. Information of these protective and the dare of the sick. Information of these protective and the dare of the sick. Information of these protective and the dare of the sick. Information to these protective and the great flood of immigration to this country takes its rise.

WHATHER MANGEARION.

The number, two of immigrants to this country has in the past undoubtedly been augmented by the knowledge thus diffused through these foreign countries of the mode which they acquise and the mean recorded.

The number, too, of immigrants to this country takes its rise.

The number, too, of immigrants to this country has in the part undoubtedly been augmented by the knowledge this diffused through these foreign countries of the mode in which they would be received and the means provided for their safety and care. These provisions remove the greatest of all the obstacles which would naturally keep back simple minded people—peasants and small farmers—when contemplating a removal from their native to a distant and foreign country; for it can be easily understood that such persons, with fittle knowledge of this part of the world, and no experience of long travel, would hesitate and as setting from their and the setting from their modes of this part of the world, and no experience of long travel, would hesitate and as setting from the manner of the world, and no experience of long travel, would hesitate mid as setting from the manner of the case of the setting provisions they had the assurance immove language, tection and care which the laws of the State land herefore provided for them. That the country at large has thus been greatly benefited by these provisions cannot be doubted. The Immirant bill now be fore Congress involves, therefore, in this view, national interests; for without the ensettment of some such measure this benefleent arrangement most be discontinued and come to an end, and the immirant who, by loss of money or other property, or by being overtaken by disease after arrival, may oeed public aid, must be placed and rated smont the common paupers of the land. The retuges and hospitals which would, by their contributions to the immigrant fund by arriving aliets, have continued to exist and to theirs, as it were, of right, would be closed and abandoned, and that most frightful of all resorts to the common foreign mind, the pournouse, would open its doors to receive them, and ultimately destroy their sense of independence and manhood. I am, sir, your obedient servant.

SMUGGLING HAVANA CIGARS. INVESTIGATION ON BOARD THE STRAMSHIP CITY

OF VERA CRUZ. The seizure of 39,000 cigars on the Havana steame City of Vera Cruz by Custom House officers has resulted in an investigation of the smuggling by the Measrs. Alexandre, the proprietors of the line. Mr. John Alexandre conducted the investigation, which was finished yesterday, and six of the erew were dis-charged, the estensible reason being their neglect of duty. The examination developed some curious facts. The cigars were discovered in one of the water-tight compartments in the forward part of the ship. It had been cut into, the cigars deposited therein, and then fixed up in such a way as to escape notice. On the arbeen cut into, the cigars deposited therein, and then fixed up in such a way as to escape notice. On the arrival of the vessel at her dock in this city the Custom House searchers were informed of the place where the cigars were concented by one of the hands on the vessel, and they made the capture. The cutting into the water-tight compartment is characterized as a most reckless piece of villany; for, if the ship had come into collision, there would have been no means of saving her irom going to the bottom. On the last voyage the ship experienced a terrible gale in the Gulf Stream, which lasted two days. The waves broke over the vessel, carrying away the bowsprit, staving in the bulwarks and doing other damage. Some of the sailors say they had to swim from their bunks to the hatchway, the water being six feet deep. No one expected to outlive the storm. The boats were got ready to be lowered and the hard tack and water kegs were placed in them to leave the snip, as it was thought that she could not stand the gale. A three masted schooner which had kept company with the ship for many hours was lost sight of, and it is supposed that she went to the bottom with all on board.

Mr. John Alexandre said yesterday that they were trying their utmost to break up the smuggling, but it was almost impossible to prevent the nilegal traffic in cigars. Crew after crew had been discharged but all to no purpose. He further said that one of the vessel's hands, who knew that the cigars were in the water-tight compartment, was discharged for failing to report it to the captain.

RORR SEIZURES.

Captain Brackett's officers yesterday seized on board.

tight compartment, was discharged for laining to report it to the captain.

MORE SHIZURES.

Captain Brackett's officers yesterday seized on board the steamer Clyde, from Havana, 1,000 fine cigars, which were about being smuzgled on shore. The contraband goods were brought to the Custom House and turned into the Seizure Room.

A boil to prunella cloth, smuggled in from Canada, and presumably belonging to a case of the same after which the Treasury officials are looking, was seized by Captain Bracket at a Broadway store and taken possession of by the government. This roll of cloth is similar to the lot shipped by the alleged agent of the smugglers, Mr. McClenaghan, of Montreal.

FOURTEENTH ST. OBSTRUCTIONS.

The Commissioner of Public Works' cannot be held responsible for the obstructions in Union square, caused by the piling up of iron rails on the street The railread company some time since procured an injunction restraining Mr. Campbell from interfering with its operations in any way. Complainants must apply for a remedy in some other quarter.

OUR COMPLAINT BOOK.

ORANGE, N. J., Feb. 19, 1877.

TO THE EDITOR OF THE HERALD:-As I feel persuaded that you are glad at all times to do your best in doing away with nuisances of any gind, I take the liberty to ask you to call attention to the fact that while the superintendent of the Hoboken the fact that while the superintendent of the Hoboken forry waiting rooms puts up posters saying, "No Smoking Allowed," men and boys are permitted by the employes to smoke at all times there when they wish. On Saturday night the air was so thick and disagreeable from the smoke that a lady in my presence spoke to the ticket agent, who replied that his authority only went as far as he was concerned in his office, and the lady was surprised to find the agent smoking himself. She could readily understand his answer.

REAL ESTATE.

The following sales under foreclosure suits were made yesterday at the Exchange salesrooms, No.

By B. P. Fairchild, E. B. Schafer referee, house with lot 25x100 on the north side of Grand street, 75 leet west of Suffolk. The sale was subject to a first mortgage of \$12,000 and \$850 interest. It went to the plaintiff, Henry Petri, for \$6,700.

By E. H. Ludlow & Co., H. F. Pulty referce, plot of land 190x272x22x50x75x102 2 in St. Ann's avenue, northwest corner Westchester avenue, Morrisania, to plaintiff, Isaac L. Devoc, for \$6,000.

By William Kennelly, J. Grant Sinclair, referee, one

side of East Eighty-eighth street, between Third and Fourth avenues, known as lot No. 84 on a map of Harlem Common, to Elizabeth A. Gader, plaintiff, for \$2,000. The sale of house, and lot 24.6861, on Gouverneur street, southwest corner of Madison street, was adjourned until the 27th inst.

DISEASE IN GOTHAM.

VITAL STATISTICS AND SANITARY AFFAIRS DIS-CUSSED BY THE BOARD OF BEALTH.

At the regular weekly meeting of the Board of Health yesterday there were some desultory discussions about milk and a certain breed of cows. After the prelimi-nary business was transacted the weekly report of

Dr. John T. Nagle, Deputy Register of Records, was presented. The following is a synopsis:—

During the week ending February 17, 1877, there were 410 deaths reported to have occurred in this city, which is a decrease of 13 compared with the number reported the proceing week and 157 less than the number reported during the corresponding week of 1876. The actual mortality for the week ending February 10 was 421, which is 148 below the average number that occurred during the corresponding week of the past five years, and represents an annual death rate of 20.43 per 1,000 persons living, the population being estimated at 1,071,182.

COMPARATIVE MORTALITT.—Week Enling—

PROPOSALS. DROPOSALS FOR CAST IRON WATER PIPES.

CITY OF BOSTON, CITY HALL,
BOSTON WATER HOARD OFFICE,
FEED, 16, 1877.
